

HEALTH SCIENCES, BACHELOR OF SCIENCE

At Albany State University, we offer a comprehensive curriculum that combines rigorous academic training with hands-on experience. Our Health Sciences program equips students with the knowledge and skills necessary to excel in various health-related careers or to pursue advanced studies in medicine, public health, healthcare administration, and more.

Program Highlights

- **Diverse Career Pathways:** Whether you're interested in clinical work, healthcare management, public health, or health education, this degree opens doors to multiple career paths in the ever-growing healthcare industry.
- **Experienced Faculty:** Learn from experienced faculty who are experts in their fields and are dedicated to student success.
- **State-of-the-Art Facilities:** Take advantage of our simulation center, modern labs and resources designed to provide practical, hands-on experience.
- **Community Engagement:** Engage with local communities through service-learning opportunities, health education initiatives, and internships that prepare you for real-world health challenges.
- **Flexible Learning Options:** We offer both traditional and online courses to accommodate a variety of learning styles and schedules.
